

Selected Publications

Md. Rafi Imam

This document summarizes my publications and highlights my individual technical contributions to each work.

Publications

1. Suicidal Thought Detection Using NLP on Reddit Data

R. Imam, et al.

[First Author]

2023 26th International Conference on Computer and Information Technology (ICCIT)

Key Contributions: My primary contributions included dataset construction, text preprocessing, transformer-based model development, and experimental evaluation.

2. Privacy-Preserving Federated Learning for Lung Cancer Classification

Md. M. Hossain, et al., R. Imam

[Co-author]

2023 26th International Conference on Computer and Information Technology (ICCIT)

Key Contributions: I contributed to implementing the federated learning framework, integrating the client-side InceptionV3 model, and validating decentralized training performance.

3. Detecting Polycystic Ovary Syndrome Using Machine Learning

T. H. Mou, et al., R. Imam

[Co-author]

2023 26th International Conference on Computer and Information Technology (ICCIT)

Key Contributions: I participated in data preprocessing, feature engineering, baseline model development, and statistical analysis.

4. YOLOv8-based Object Detection for Self-driving Cars

Z. Afrin, F. Tabassum, H. B. Kibria, M. R. Imam, and M. R. Hasan

[Fourth Author]

2023 26th International Conference on Computer and Information Technology (ICCIT)

Key Contributions: I contributed to YOLOv8 implementation, data augmentation, performance evaluation, and real-time deployment experiments.

Current Research Interests

- Efficient AI Systems
- Parameter-Efficient Fine-Tuning (PEFT)
- Computer Vision

- Multimodal Learning
- ML Systems
- AI Hardware Co-design
